

TOP TIPS FOR YOUR CAT DURING *Fireworks*

Before the event

- Consider some form of identification i.e. microchip to trace your cat if they do manage to escape.
- Plug in a **Feliway Diffuser** in your cat's favourite room.
- Provide elevated hiding places for your cat to retreat to.

On the day of the event

- Ensure your cat is inside the house and windows and doors are shut to prevent your cat from escaping. Don't forget to get your cat a litter tray!
- Close curtains and put the TV or some music on to mask the noise of fireworks.
- Wherever your cat chooses to hide leave them well alone until they feel safe to come out.
- Stay calm and act normally, do not punish or fuss your cat during the event.

After the event

- Leave the **Feliway Diffuser** plugged in for at least a week.
